TIP OF THE MONTH

TIP OF THE MONTH

From Our Head Golf Professional

Joshua Larys

Taking a proper divot isn't something you try to "dig" it, the result of good impact. Set up with a slight favor toward your lead side and the ball positioned just forward of center. As you swing, your goal is to hit the ball first and the ground second. This happens when your chest and weight move toward the target through impact, keeping the club traveling downward. At impact, your hands should be slightly ahead of the ball, which delofts the club and ensures clean contact.
